What is a Charge Card?

A Charge Card is similar to a credit card as you can spend on it the same way as a credit card, but it has a monthly spending limit and requires that you pay the statement balance in full every month. Your Santander International Charge Card will be linked to a Gold Account in the same currency and each month the balance is due it will be automatically deducted from your Gold Account. You will therefore need to ensure that you have sufficient funds in your Gold Account every month to make the payment.

The Charge Card is available in a choice of Sterling, Euros or US dollars.

We have partnered with card and payments experts, AF Payments Ltd (part of the Accomplish Group), who will be providing the Charge Cards on our behalf. They have the experience and technology to deliver professional card solutions that can offer a range of benefits that have been especially curated. On your agreement, we will share with them the data they need to set-up and personalise your Charge Card.
